

INDEX OF TECHNICAL AND SYMPOSIUM PAPERS **VOLUME 87, PARTS I AND II**

TITLES

A

- Abbreviation of Climate Data for Building Thermal Analysis Programs Using Representative Samples of Various Lengths, D.H. NALL, E.A. ARENS, L.E. FLYNN I 923
- Acoustic and Aerodynamic Characteristics of Duct Silencers for Air-Handling Systems, M. HIRSCHORN I 625
- Advanced Control Strategies for Energy Conservation in Building Operation, K.S. HARMON, JR. I 875
- Air Flow Experiments in Full Scale Test Rooms, K.F. FITZNER I 1143
- Air Flow Pattern and Its Influence on the Economy of Air Conditioning, H.P. BROCKMEYER I 1127
- Air in Hydronic Systems: How Henry's Law Tells Us What Happens, F. POMPEI I 1326
- Air-Type Solar Collector Design, B.F. PARKER .. I 1463
- All-Day Efficiency of Collector Arrays in National Solar Data Network, The, T.F. ECK II 945
- Ambient Gravity Air Flow Prevents Freezer Floor Heaving, G.L. POWERS II 1107
- Analysis of Acoustically Lined Duct and Fittings and the State of the Art of Their Use, An, J.D. BODLEY I 658
- Analysis of Computer-Simulated Thermal Performance of the Norris Cotton Federal Office Building, W.B. MAY, JR., L.G. SPIELVOGEL I 1207
- Analytical Developments in Interzone and System Coupling Methodology, Z.O. CUMALI, R.SULLIVAN II 539
- Application of Photovoltaics to a Solar Water Heater, The, S.A. MUMMA, R. HAMMOND II 797
- Appraisal of the Sulphur Hexafluoride Decay Technique for Measuring Air Infiltration Rates in Buildings, An, M.R. BASSETT, C.Y. SHAW, R.G. EVANS II 361
- Attenuation of Direct Beam Solar Radiation for the Bands Defined by the OGI, RG2 and RG8 Filters, The, G.W. SADLER II 383
- Augmentation of In-Tube Condensation of R-113 by Means of Surface Roughness, M. LUU, A.E. BERGLES II 33

B

- Balancing for Energy Conservation, M.J. SMITH . I 1000
- Basic Compressor Application, J.H. GRIM. I 837
- Basic Concepts of Frost Heaving, R.G. REIN, JR., C.M. BURROUS II 1087

- Basic Principles and Possible Configurations of Magnetic Heat Pumps, G.V. BROWN. II 783
- Basics of Computer/Control Device Interfacing, R.A. BIEHL I 702
- Budget Estimates for Replacement of Plant and Facility Equipment at the National Bureau of Standards, P.T. CHEN, R.E. CHAPMAN I 1243

C

- Calculating Building Heating Loads Using the Frequency Response of Multi-Layered Slabs, D.C. HITTLE, C.O. PEDERSEN II 545
- Calculation of Air-Conditioning Loads in an Office Building by the LPB-1 Program: Comparison with Results of Other Computer Programs, Y. DELORME, P. CONSTANT, J. LEBRUN I 235
- Capillary Tubes—Their Standardization and Use, J.M. SWEEDYK I 1069
- Capital Financing Difficulties of Solar Collector Manufacturers, A.F. FRIEDLANDER I 1273
- Case History of a Frost-Heaved Refrigerated Freezer Floor, A, D.F. BALLOU II 1099
- Circulating Liquid in Pipe Grid System for Floor Heavage Prevention in Refrigerated Warehouses, J.F. WEBBER II 1117
- Clean Room Applications in Pharmaceutical Manufacturing, M.F. SISTI II 719
- Clean Room Design for Microelectronics Manufacturing, F.T. GERBIG II 689
- Clean Room Equipment and Laboratory Biohazard Safety Applications, R.C. MARSH. . II 709
- Climatology—A Cornerstone in Building Energy Analysis, Q.L. WILKES, J.G. SCHOFIELD, D. HERRON I 935
- Combustion Controls for Alternative Fuels, U. BONNE, A. PATANI I 361
- Comparative Energy Requirements of Radiant Space Heating (RP-177A), W.L. BRYAN I 106
- Comparative Report of Solar Heating Systems Performance, P.W. KENDALL, H.O. HOLTE ... II 631
- Comparison of Blast Program Predictions with the Energy Consumptions of Two Buildings, G.K. YUILL, E.G. PHILLIPS I 1200
- Comparison of Calculated Hourly Cooling Load and Attic Temperature with Measured Data for a Houston Test House, T. KUSUDA, E.T. PIERCE, J.W. BEAN I 1185
- Comparison of Calculated Hourly Cooling Load and Indoor Temperature with Measured Data for a High Mass Building Tested in an Environmental Chamber, T. KUSUDA, J.W. BEAN. I 1232

INDEX OF TECHNICAL AND SYMPOSIUM PAPERS **VOLUME 87, PARTS I AND II**

- Comparison of Calculated Hourly Cooling Load and Attic Temperature with Measured Data for a Houston Test House, T. KUSUDA, E.T. PIERCE, J.W. BEAN I 1185
- Comparison of Calculated Hourly Cooling Load and Indoor Temperature with Measured Data for a High Mass Building Tested in an Environmental Chamber, T. KUSUDA, J.W. BEAN. I 1232

Comparison of DOE-2 Computer Program Simulations to Metered Data for Seven Commercial Buildings, S.C. DIAMOND, B.D. HUNN.	I	1222
Comparison of DOE-2-Generated Residential Design Energy Budgets with Those Calculated by the Degree-Day and Bin Methods, T. KUSUDA, I. SUD, T. ALEREZA.	I	491
Comparison of Experimental Performance of Two Air-Type Solar Heating Systems with F-Chart Predictions, R.M. PASCH, M.B. EBERLEIN, R.B. STEINHOFFER.	II	935
Compressor Simulation Model with Corrections for the Level of Suction Gas Superheat, A. A.E. DABIRI, C.K. RICE.	II	771
Computer Model for Air-Cooled Refrigerant Condensers with Specified Refrigerant Circulating, A. R.D. ELLISON, F.A. CRESWICK, S.K. FISCHER, W.L. JACKSON.	I	1106
Computer Simulation Method for Describing Two-Phase Flashing Flow in Small Diameter Tubes, A. S.D. GOLDSTEIN.	II	51
Condensation of Refrigerant-Oil Mixtures on Horizontal Tubes, P.E. WILLIAMS, H.J. SAUER, JR.	I	52
Conserving Energy in Domestic Refrigerators through the Use of Refrigerant Mixtures, W.F. STOECKER, D.J. WALUKAS.	I	279
Contribution of Psychological Variables to the Prediction of Thermal Comfort Judgments in Real World Settings, The, W.C. HOWELL, C.S. STRAMLER.	I	609
Control Strategies in Major Shopping Centers: The Energy Viewpoint, J. WOLFERT.	I	871
Conversion to Dynamic Operation of Existing Buildings by Using Simple Economic Controls, P.C. LAMBERT.	II	475
Correlation between Air Infiltration and Air Tightness for Houses in a Developed Residential Area, A. C.Y. SHAW.	II	333
Correlations of Laboratory Test Results with Field Performance of Solar Domestic Hot Water Systems under Controlled Draw Rates, F.C. WESSLING.	II	835
Custom Weighting-Factor Method for Thermal Load Calculations in the DOE-2 Computer Program, The, J.F. KERRISK, N.M. SCHNURR, J.E. MOORE, B.D. HUNN.	II	569

D

Dead Band Thermostats—Pro and Con, C. FULLMAN, B.M. HELM.	I	859
Degree-Day Correction Factors: Basis for Values, G.A. REEVES.	I	507
Design and Verification of a Thermal Scale Model for Environmental System Energy Studies, J.G. THOMPSON, D. HAN, N.Z. AZER.	II	453
Design Basics—Screw Compressors, A. LUNDBERG.	I	826
Design Influence of Air on Hydronic Systems, The, G.F. CARLSON.	I	1293
Design of a Geothermal District Heating System for Boise, Idaho, N.H. LITTLE, J.C. AUSTIN, R.R. BISSELL.	II	1005

Design of the Klamath Falls Geothermal District Heating Network, P.J. LIENAU.	II	979
Design Optimization of Conventional Heat Pumps: Application to Steady-State Heating Efficiency, C.K. RICE, S.K. FISCHER, R.D. ELLISON, W.L. JACKSON.	I	1037
Determination of Annual Efficiency of Vented Heaters Equipped with Thermally Activated Vent Dampers, E.R. KWELLER, W.F. MULLIS.	I	753
Development of a High Efficiency, Automatic Defrosting Refrigerator-Freezer, R.F. TOPPING, W.D. LEE.	II	859
Development of a Standard Test Facility for Evaluation of all Types of Air-to-Air Energy Recovery Systems, M.A. MUELLER, G.J. GUDAC, R.H. HOWELL, H.J. SAUER, JR.	I	183
Development of an Air-Icemaker Multiple-Source Heat Pump System, The, M.H. SOMERVILLE, S.G. PENONCELLO.	I	1445
Development of Hourly Data for Weather Year for Energy Calculations (WYEC), Including Solar Data, at 21 Stations throughout the U.S. (RP-239), L.W. CROW.	I	896
Direct Application of West Coast Geothermal Resources in a Wet Corn Milling Plant, A. KO, R.M. COSTELLO, M.E. KNEBEL.	I	447
Direct Digital Control of HVAC and Other Processes: 1. An Introduction to Central Monitoring and Control Systems (CMCS), G.B. LAMERS.	I	517
Distributed Processing Architectures for Computerized Energy Management Systems, J.M. BORKY.	I	675
DOE Test Procedure Setup Measurement Errors: Part I, D.R. TREE, G.D. LAMB.	II	743
Domestic Solar Hot Water Monitoring in Pennsylvania, W.K. AUNGST.	II	823
Dynamic Response through Computer Control, R.J. COUGHLIN.	II	487

E

EMCS Backup Functions: System and Software Design Considerations, G.P. FUTAS.	I	531
Effect of Air on Hydraulic Performance of the HVAC System, R.F. HULL.	I	1301
Effect of Processing and Storage on Sensory and Nutritional Quality of Raw, Frozen, and Canned Green Beans and Broccoli, W.N. LEE, A. KRAMER, Y. ONISHI.	II	23
Effect of Retrofits on Combustion Characteristics and Seasonal Efficiency of Gas-Fired Furnaces and Boilers, R.A. MACRISS, T.S. ZAWACKI.	I	805
Effect of Room and Control Systems Dynamics on Energy Consumption, The, J.G. THOMPSON.	II	883
Effect of Structural Thermal Capacity on the Air Conditioning of a Mobile Home, The, W.E. MURPHY, C.A. SANCHEZ, V.W. GOLD-SCHMIDT.	II	263
Effectiveness and Pressure Drop Characteristics of Various Types of Air-to-Air Energy Recovery Systems (RP-173), G.J. GUDAC, M.A. MUELLER, J.J. BOSCH, R.H. HOWELL, H.J. SAUER, JR.	I	199

Effectiveness of Selecting Clothing for Comfort in the 18.3°C (65 F) Environment, The, D.M. MUNSON	I	577
Effects of Cyclic Response of Residential Air Conditioners on Seasonal Performance, V.W. GOLDSCHMIDT	II	757
Effects of Lighting, Color, and Room Decor on Thermal Comfort, The, F.H. ROHLES, JR., C.A. BENNETT, G.A. MILLIKEN	II	511
Electrical Energy Management, D.H. SPETH-MANN	I	543
Elements of Compressor Noise Control, C.F. SPEICH	I	842
Energy Calculation Sensitivity to Simulated Weather Data Compression, L.O. DEGELMAN ..	I	907
Energy-Conscious Air Side Design: Phase 1 of Energy Use Minimization, E.E. CHOAT	I	1011
Energy Conservation and Reclamation in Food Transportation, B.H. ASHBY	II	851
Energy Conservation Evaluation of Two Variable Interval Time/Temperature Heat Pump Defrost Control Strategies, An, R.J. RETTBERG	II	435
Energy Conservation Opportunities in Cold Storage Warehouses, G.R. HAMPSON, II	II	845
Energy Impact of the Use of Daylighting in Offices, N.E. SANCHEZ, W. RUDOLPH	II	145
Energy Management Program for Retrofitting HVAC Systems, R.D. LAHMON	I	1398
Energy Performance of a Residential Electric Water Heater, W.W. SCHULTZ, V.W. GOLDSCHMIDT	I	310
Energy Recovery in Carbon Calcination Plant Air Pollution Abatement Systems, L.C. HARDISON, G.J. NAGL	I	724
Engineering Method for Estimating Annual Basement Heat Loss and Insulation Performance, M.C. SWINTON, R.E. PLATTS	II	343
Enhancement of Field Data Control/Monitor Units in Building Automation Systems through Use of Single Chip Microprocessors, D.R. FUHR	I	690
Estimating Geothermal Energy Costs in the Eastern United States, E.H. HERRON	I	425
Estimating Residential Seasonal Cooling Requirements, W.H. PARKEN, G.E. KELLEY ..	I	473
Estimation of Evaporation from Horizontal Surfaces, M.M. SHAH	I	35
Evaluation Methods for Air Velocity Measurements in Air-Conditioned Rooms, B. GRAFF	I	1154
Evaluation of a Ground Coupled Air-to-Air (Crawl Space) Heat Pump, L.O. SMITH, R.L. REID	II	405

F

Finned Tube Heat Exchangers: State of the Art for the Air Side, F.C. McQUISTON	I	1077
Free Computer Facility Chilling with a Non-Contaminating Open Cooling Tower Circuit, H.P. BECKER	I	1405
Frosting and Leakage Testing of Air-to-Air Energy Recovery Systems (RP-173), H.J. SAUER, JR., R.H. HOWELL, J.R. WRAY	I	211

Fundamentals and Economic Principles in District Heating Planning, H.C. MORTENSEN, M. LARSEN	II	1015
--	----	------

G

Generalized Heating and Cooling Load Models for Seasonal Performance Calculation, A.E. DABIRI, D.L. PETERKA	II	195
---	----	-----

H

HVAC Control Process Simulation, B.A. BORRESEN	II	871
HVAC of Clean Facilities for Electronic Research Laboratories, L.E. CARNES	II	699
Heat and Mass Transfer Performance of Air Coolers under Wet Conditions, T. SENSU, T. HATADA, K. ISHIBANE	II	109
Heat Exchanger Performance of a Water Heater for Residential Heating and Hot Water Supply, M. SAKAMOTO, A. MITANI	I	335
Heat Pumps "On"- "Off" Capacity Control and Defrost Performance Tests Using Demand and Time-Temperature Defrost Controls, P. MERRILL	I	381
Heat Transfer during Film Condensation in Tubes and Annuli: A Review of the Literature, M.M. SHAH	I	1086
Heat Transfer in Building Thermal Insulation: The Thickness Effect, H.A. FINE, S.H. JURY, D.W. YARBROUGH, D.L. McELROY	II	89
Heating the Perimeter Zone of an Office Building: An Analytical Study Using the Proposed ASHRAE Comfort Standard (55-74R), G.H. HART	II	529

I

Ice-Maker Heat Pump Harvesting Scheme Development and Ice-Packing Density, V.D. BAXTER	I	1429
Index to Quantify Thermal Comfort in Residential Buildings, An, J.A. CARROLL	I	566
Influence of the Expansion Device on the Seasonal Energy Requirements of a Residential Air Conditioner, W.F. STOECKER, L.D. SMITH, III, B.N. EMDE	I	349
Introduction to Microcomputers, An, A.W. BLACK, III	I	399

L

Latest European Developments in the Field of Electronic Allocation of Costs by Hydronic Systems, D.R. GOETTLING, F.H. KUPPLER ...	II	79
---	----	----

M

Measurement of Room Air Diffusion in Actual Office Environments to Predict Occupant Thermal Comfort, D. INT-HOUT, III	II	495
Measurement of Window Treatment Effectiveness in Reducing Residential Heating		

and Cooling Costs, The, R.J. TOMANY.	II	235
Measurement System for Determination of Air Diffusion Performance in Interior Spaces, A. D. INT-HOUT, III.	II	503
Model Tests on Subway Tunnel Ventilation by an Impulse Fan, G. YAMANAKA, Y.L. CHOW, S. YAGISHITA.	I	1369
Modeling and Optimization of HVAC Systems Using Network Concepts, G.J. SILVERMAN, S.A. JUROVICS, D.W. LOW, E.F. SOWELL.	II	585
Modifying Perceptions of Comfort and Electricity Used for Heating by Social Learning Strategies: Residential Field Experiments, R.A. WINETT, J. HATCHER, I. LECKLITER, T.R. FORT, J.F. FISHBACK, A. RILEY.	I	555

N

New Economics of Space and Water Heating and Space Cooling, The, D.M. JARDINE.	I	1280
Noise Rating of Variable Air-Volume Terminal Devices, W.E. BLAZIER, JR.	I	140

O

On the Preparation of Climatic Design Criteria for Solar Space-Heating Systems in a Cloudy Climate, O.M. ESSENWANGER.	I	883
On the Use of Large Mainframe Computers, Timeshared Networks and Terminals, C.O. PEDERSEN.	I	417
Operating and Performance Evaluation of Domestic Water Heating Systems, G.R. GUINN, B.J. NOVELL, L.L. HUMMER.	II	811
Operating Performance of a Water Spray on an Air-Type Condensing Unit, G.R. GUINN, B.J. NOVELL.	II	373
Opportunities to Save Energy in Tropical Climates, F.H. KOHLOSS.	I	1415
Optimization of Residential Size Heat Pumps for Use with Geothermal Energy, G.M. REISTAD, V. TORABRAMIANS.	I	436
Organic Contaminants in Indoor Air and Their Relation to Outdoor Contaminants, F.H. JARKE, A. DRAVNIKS, S.M. GORDON.	I	153
Overview of Geothermal District Heating System Conceptual Design and Applicability, G.M. REISTAD.	II	963
Owner's Side to an Energy Audit, The, J.E. JONES.	I	1007

P

Paint Booth Energy Recovery: A Light Industrial Case History, L.G. HARRIMAN, III.	I	742
Performance Evaluation of a Reciprocating Compressor through Blanked Suction Test Data, S. LIN, G. XISTRIS, M. SIGALAS.	I	263
Performance of a Continuous Linear Diffuser in the Interior Zone of an Open Office Environment, The, G.H. HART, D. INT-HOUT, III.	II	311
Performance of a Developmental Space and Hot Water Heating Solar Energy System, A.A. GOSSLER.	II	649

Performance of an Air Distribution System on a Mobile Home, V.W. GOLDSCHMIDT, G.H. HART.	II	297
Performance of Instrumented Passive Solar Systems in the HUD Solar Residential Demonstration Program, H.R. SPARKES, K. RAMAN.	II	667
Performance of Three Well-Instrumented Residential Solar Energy Systems, W.S. DUFF, S. KARAKI, G.O.G. LOF.	II	611
Periodic and Stochastic Behavior of Weather Data, D.C. HITTLE, C.O. PEDERSEN.	II	173
Prediction of Noise Levels from Ceiling Air Grilles in Large Low-Ceilinged Rooms, C.J. HURST.	II	1059
Project Icebox—An Annual Energy Storage System, J. KLASSEN.	I	1456
Promise and Potential of Air-to-Air Energy Recovery Systems (RP-173), H.J. SAUER, JR., R.H. HOWELL.	I	167
Protection Systems for Integral Horsepower, Hermetic Motor-Compressors, J.T. HAGUE.	I	851
Pump Energy Conservation and Flow Balance Analysis, G.F. CARLSON.	I	985

R

Radiant Spot Cooling of Hot Working Places, B.W. OLESEN, R. NIELSEN.	I	593
Reciprocating Compressor Design for High Efficiency, V. VILLADSEN, F.V. BOLDVIG.	I	819
Reduced Load Dynamics in Steam Heat Exchangers, J.C. ZEKIND.	I	954
Reducing Energy Requirements in Industry, J.F. FILLIBEN, JR.	I	715
Reducing the Peaks of Internal Air-Conditioning Loads by Use of Temperature Swings, W.F. STOECKER, R.R. CRAWFORD, S. IKEDA, W.H. DOLAN, D.J. LEVERENZ.	II	599
Reduction of Ventilation Heat Loss by Porosity, The, D.R. PATTIE, N.K. KAGIO.	I	222
Re-evaluation of Laminar Air Flow in Hospital Operating Rooms, A, J.F. PFOST.	II	729
Re-evaluation of Two-Phase Technology in Thermal Fluid Systems, A, W.J. COAD.	I	943
Refrigerant Charged Phase Change, Solar Water and Space Heating Systems, E.W. BOTTUM.	II	397
Relating Indoor Pollutant Concentrations of Ozone and Sulfur Dioxide to Those Outside: Economic Reduction of Indoor Ozone through Selective Filtration of the Make-up Air, F.H. SHAIR.	I	116
Relation between Sound Power Level and Sound Pressure Level Outside of Laboratories, The, T.J. SCHULTZ.	II	1031
Relationship of Infiltration to Weather Parameters for a Mobile Home, V.W. GOLDSCHMIDT, D.R. WILHELM.	II	277
Relationships between Measures of Thermal Environment and Measures of Worker Productivity, J.E. WOODS, G. WINAKOR, E.A.B. MALDONADO, A. ALAGHEHBAND, S.K. ADAMS.	II	117
Retrofit of Building Systems for Resource Conservation: Six State-of-the-Art Examples,		

G.W. GUPTON, JR.	I	1393
Review of Minicomputer Systems, A. S.F. BRUNING.	I	408
Review of Technology for the Development of High-Efficiency Oil-Fired Residential Heating Equipment, A. D.W. LOCKLIN, H.R. HAZARD, L.M. WOODWORTH.	I	769
Review of Two Existing Low Temperature Geothermal District Heating Systems in Europe, A. N.T. CHRISTENSEN, J. DUPONT-CORBRAN.	II	995
Revised Noise Criteria for Design and Rating of HVAC Systems, W.E. BLAZIER, JR.	I	647
Room Acoustics Equation: Its Limitation and Potential, The, J.K. THOMPSON.	II	1049
Room Flow Tests in a Reduced Scale, W. MOOG.	I	1163

S

Secondary Heat Recovery from Ironmaking Cupola Waste Gases, J. THOMAS.	I	735
Self-Ventilated Bus-Tunnels for the Central Business District, B. DAYMAN, JR., W. KENNEDY.	I	1345
Simplified Degree-Day Method for Commercial and Industrial Buildings, A. A. GUNTERMANN.	I	461
Simplified Procedure for Estimating Energy Requirements of Commercial Structures, N. SHARABIANLOU, F.C. McQUISTON.	II	215
Single-Zone Computer Model for Residential Furnace Location Analysis, C. PARK.	II	897
Solar Applications for Heating Commercial Greenhouses, L.D. ALBRIGHT.	I	1483
Solar Energy Applications in Animal Housing, J.P. MASON.	I	1476
Solar Thermal Residential and Commercial Economics: 1980 Update, J.V. CONOPASK, P. FONASH, J. EASTERLY.	I	1260
Some Effects of Thermal Mass in Multi-Family Dwellings: Part1—Modeling Parameters, W. RUDOLY, K.J. ROMANKO.	I	292
Some Effects of Thermal Mass in Multi-Family Dwellings: Part 2—Effects on Heating and Cooling Loads, K.J. ROMANKO, W. RUDOLY.	II	161
Sound Pressure Level Prediction in Computer and Office Equipment Rooms, L.F. LUTTRELL.	II	1077

T

Test Data versus F-Chart Predictions for Two Domestic Hot Water Systems, J.C. Bowen, J.F. NELSON.	II	805
---	----	-----

Theoretical Thermal Performance of Air-Cycle Heat Pumps with Water Injection, The, F.A. CRESWICK.	I	1025
Thermal Room Models for Control Analysis, B.A. BORRESEN.	II	251
Thermodynamic Properties of Ammonia-Water Mixtures: A Reassessment in Tabular Format, The, B.H. JENNINGS.	II	419
Thermodynamic Property Charts and Cycle Analysis for Binary Refrigerant Mixtures, L.C. SINGAL, C.P. SHARMA, H.K. VARMA.	I	80
Transient Performance of a Forced Warm Air Duct System, The, R.A. GROT, D.T. HARRJE.	I	795
Trend in Vehicular Emission Rates of Carbon Monoxide, G.A. BONFORTE.	I	1359
Tunnel Ventilation by Impulse Fan System in Hong Kong Mass Transit Railway, G. YAMANAKA, Y.L. CHOW, S. YAGISHITA.	I	1380
Two-Phase Flow in Sloped Gravity-Driven Condensate Return Lines of Steam Systems, M.K. BELL, R.H. HOWELL, H.J. SAUER, JR., J.J. BOSCH.	II	61

U

University Evaluates Dead Band Control Strategy, J.P. PAOLUCCIO, J.A. BURFIELD.	I	864
Update and Expansion of the ASHRAE Computer Program Bibliography (SP-22, T7), R.H. HOWELL, H.J. SAUER, JR.	I	94
Use of Slide Gate Dampers for Balancing Ventilation Systems, The, K.J. LOUDERMILK, J.W. CROWDER.	II	321
Utility Looks at the Dual Fuel Heat Pump, A. J.A. HUGHES, T.M. LECHTON, L.R. POOLE.	I	1056

V

Validation of Steam Condensate System Flow Theories, R.H. HOWELL, H.J. SAUER, JR., M.K. BELL, J.J. BOSCH, R.A. FLECHNER.	I	963
Verification of Prediction Techniques for the Performance of Parabolic Trough Solar Collectors, D.F. BRINK.	II	923

W

Wind-Related Heat Transfer Coefficients for Leeward-Facing Solar Collectors, E.M. SPARROW, J.W. NELSON, S.C. LAU.	I	70
